Rock Garden Plants - Hardy Perennials - Hybrid Lilacs
Cotoneasters - Azaleas - Flowering Apples
FRUIT TREES AND ORNAMENTAL TREES AND SHRUBS

To Our Customers

THE WESTON NURSERIES are located in the southern part of the Town of Weston, 14 miles from Boston, on a large, open field which a few years ago was used as an aviation field. Coming out from Boston on Commonwealth Avenue, follow South Avenue, the Framingham Road. Winter Street is the first street on your left after you cross Wellesley Street. We are one minute's drive down Winter Street, right back of the pine growth.

Visitors are always welcome and the best possible service is given.

It is to our interest to see that only good and correctly named plants leave the Nursery. But we give no guaranty as to description, quality or productiveness of any of the plants we sell, and will not be in any way responsible since the failure of any depends on the customer's care of the plants.

Any errors made by us will be gladly rectified if notice is given immediately after unpacking the plants. If any plants are found to be misnamed, we will replace them the next planting season.

If cash is sent with the order, we omit the usual charge for packing.

We sell 5 at the rate of 10 and 25 at the rate of 100 where those rates are quoted.

If customers wish us to select for them any varieties of plants for their rock gardens, perennial borders, fruit trees or for any other purpose, we will do so and will assure them of satisfaction.

A certificate of state inspection for freedom from injurious insects or diseases on our plants will go with every order.
